Subject: copy of 2000 Baseline Risk Assessment?

Hi All,

Does anybody have a copy of the 2000 Baseline Risk Assessment (BRA) from Auxier & Associates? (I didn't see it on EPA West Lake website) The 2011 supplemental FS says that the

2000 BRA has some discussion on thorium/radium solubility. I thought it might be good to check it out in case there's any information to be had for the pyrolysis leaching to groundwater testing.

Thanks!
